

SARAH ALAJMI

COMPUTER ENGINEER

0548701236 • Saudi Arabia • sarah.j.alajmi@gmail.com

OBJECTIVE

Recent Computer Engineering graduate with a focus on IT support and network operations. Seeking to leverage technical and analytical skills to contribute effectively to a dynamic team environment.

EXPERIENCE

Royal Commission For Yanbu Co-op Training

June 2023 - Nov 2023

- Managed PC formatting, account creation, and troubleshooting for over 150 devices.
- Rotated through roles in System, Application, Cyber Security, Smart City, and Network departments.
- Executed network setups, VLAN configurations; trained in Cisco ISE, PRIME, and wireless controllers.

SDA (Saudi Digital Academy)

Feb 2025 – Present

Cloud computing Bootcamp

- Intensive hands-on training in Microsoft Azure, covering cloud infrastructure, networking, security, and AI services.
- Learning to deploy and manage virtual servers, networks, and databases while implementing security best practices.
- Gaining practical experience through labs and projects, culminating in a capstone project focused on designing and deploying an integrated cloud solution.
